Kathy,

Attached, are some edits and questions I have on the TPs. Please call me if you have any questions.

Thanks

bf

Subject: 404(g) talking points and background paper for John's attendance at ECOS mtg

Brian,

Sorry for the delay, of the required talking points needed this seemed like the one I could do last.

Anyway, John wanted bullets and updates in case he is asked questions at the ECOS meeting about assumption.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

I organized this attachment into two parts:

- 1) General bullets, Q&As about assumption, and status of current efforts
- 2) Background paper on assumption requirements and process – Katherine asked for a background piece. This can be 2 or 4 pages. The schematics can be kept or not.

If you are fine with this document, please forward to Katherine for inclusion in John's briefing book. If you have any questions, please don't hesitate to call. - Kathy

Next on the agenda – weekly talking points for OW staff meeting and then my running list of 404(g) activities. Stay tuned.
